

Otex Olive Oil Ear Drops

Uses

Gently softens and helps remove hardened ear wax.

Dosage

Adults and children: tilt head and gently squeeze 2 to 3 drops into the ear without touching the ear with the end of the dropper. Leave for a few minutes and then wipe surplus with a tissue. Repeat once or twice daily, if necessary, for approximately 14 days while symptoms clear.

Format and Ingredients

Liquid solution (drops) containing:
Medicinal Grade Olive Oil,
