

Lynclear Sensitive

Uses

Treatment of head lice infections.

Dosage

Adults and children over 6 months: put a towel around shoulders and apply evenly onto dry hair, covering all the hair and scalp. Massage well from roots to tips paying particular attention to the neck and behind the ears. Leave on overnight (at least 8 hours) and wash hair the morning after with normal shampoo. Comb the wet hair with the anti-lice comb to remove the dead lice and eggs. Repeat the treatment if necessary.

Format and Ingredients

Lotion containing:
Oxyphthirine,
