

Balneum Plus Bath Oil

Uses

Treatment of dry skin conditions including those associated with dermatitis and eczema where severe pruritus is also experienced.

Dosage

Adults: for a full bath (approx. 100 litres) use 20ml (1 measure). Neonates and children: for a child's bath (approx. 25 litres) use 5ml (a quarter measure). For a partial bath (approx. 5 litres) use 2.5ml (one-eighth measure). In particularly dry skin, 2-3 times the above quantities can be used. Frequency and duration of the application should be adjusted according to the type and severity of the condition. Adults should use the bath oil at least 3 times a week. For children and infants a daily bath is recommended.
