

Scholl Fungal Nail Treatment

Uses

For the treatment of mild fungal nail.

Dosage

Week 1: File the surface of the nail once a week, disposing of the file after use. Apply the nail liquid to the infected nail daily. Repeat for weeks 2, 3 and 4. Week 5 onwards apply the nail liquid to the infected nail once a week for 9-12 months until the discolouration has grown out.

Format and Ingredients

File and clear nail liquid
