

## SwimSeal Ear Drops

### Uses

Coats the external ear canal to prevent trapped water which can cause common ear infections such as swimmer's ear.

### Dosage

2-3 drops into each ear before showering, swimming or bathing.  
Suitable for all ages but should not be used by those who have grommets, a perforated ear drum, are pregnant or lactating.

### Format and Ingredients

Alcohol-free ear drops containing:  
Tea Tree Oil,
