

Earex Olive Oil Ear Drops

Uses

Natural lubricant to gently soften and help remove ear wax.

Dosage

Adults, the elderly and children 5 years and over: tilt the head to one side with the affected ear facing upwards. Squeeze 2-3 drops in the ear, gently massage around the outside of the ear. Keeping the head tilted, plug the ear lightly with cotton wool if required to prevent leakage. To remove, tilt the head so the ear is facing downwards and allow the oil to drain. Children 1-5 years should receive a medical diagnosis before the drops are used. If symptoms persist, medical advice should be sought.

Format and Ingredients

Drops containing:
Olive Oil R.P.D. 100%
